

## Laboratory Safety and Conduct Rules

1. No student is permitted in the laboratory without an instructor.
2. Students may not start an experiment until given permission by the instructor.
3. Students may not block the aisle in the laboratory with their bags, jackets, notebooks and other articles. Laboratory aisles must be kept uncluttered.
4. Bare feet and sandals are not acceptable.
5. No student may invite individuals who are not enrolled in the Physics/Astronomy laboratory courses to come in the Physics/Astronomy laboratory class.
6. No student is permitted to change the configuration of any computer he/she is working on and will only use the computer as instructed to work on physics or astronomy laboratory experiments.
7. Absolutely no eating or drinking in the laboratory during anytime.
8. Every student will clean up his/her work area before leaving. This includes any gum wrapper, paper confetti or eraser crumbs which accumulates during the lab session.
9. No student will write on or deface any lab desks, computers, or any equipment provided to them during the experiment. They will use all equipment only for the purpose intended.
10. I have read and understood these rules. I understand that any violation of these rules could lead to dismissal for the lab session and any other appropriate action by the instructor.
